DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. The application has been amended as follows:

3. **IN THE SPECIFICATION:**

In Paragraph [0001], Line 4, please insert -- co-pending-- before "U.S.".

Allowable Subject Matter

4. Claims 2-22 are allowed.

REASONS FOR ALLOWANCE

5. The following is an examiner's statement of reasons for allowance:

The prior art of record does not teach or suggest individually or in combination the following:

a packet arrival time detector, coupled to the receiver, configured to correlate the demodulated received signal with a stored preamble and to output a packet arrival time at a symbol period boundary of the received signal.

Art Unit: 2116

For these reasons claims 2 *and* 3 are deemed to be allowable over the prior art of record, and claims 4-12 are allowable by dependency.

Also, the prior art of record does not teach or suggest individually or in combination the following:

detecting a maximum of the correlated output during a window of period W, and comparing an index of the maximum with the output of a modulo-L counter to produce a packet arrival time at a symbol period boundary of the received signal.

For these reasons claims 13,15, 21 *and* 22 are deemed to be allowable over the prior art of record, and claims 14 *and* 16-20, are allowable by dependency.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
